## SHAMANNA - 2016

A twin helm is an ideal configuration for racing while below the waterline lies a hydraulic lifting keel that works threefold to maximise comfort, enhance performance and allow owners to access shallower anchorages and ports. Fully extended, she has a draft of 5.75 metres that retracts to 3.55 metres.

Other sailing credentials include a four-spreader black high modulus carbon fibre mast for offshore cruising with removable inner forestay and running backstay, boom and Harken winches complete the set-up. The yacht is also equipped with a full suite of racing sails, including a 356-square-metre main sail and 630-square-metre asymmetric spinnaker. A carbon fibre Park Avenue boom and Harken winches complete the set-up.

### PERFORMANCE & RANGE

Shamanna is built with a carbon fibre hull and carbon fibre superstructure. Powered by 1 x Scania engines, she comfortably cruises at 10 knots, reaches a maximum speed of 12 knots. Shamanna features at-anchor stabilizers providing exceptional comfort levels.
